A1 series self-service check out kiosk

Product type: Self-service check out kiosk
Operating system: Android system/Windows system (optional)
Running memory: 2G/4G/8G
Solid state drive: Android version 8G/16G/32G; PC version 128G
Touch type: G+G capacitive touch
Product size: 21.5 inches, 23.8 inches, 27 inches, 32 inches
Installation method: Base bracket/Wall hanging
Upgrade function: Provide device online upgrade and remote upgrade function

- High-definition display
- Multi-touch
- Face recognition
- Invoice printing
- barcode scanning
- built-in WIFI
- system optional
- function customization
- interface customization
- wall-mounted /floor-standing
- appearance customization
- support customization

Appearnce Introduction

- 3D facial recognition camera
- 1080P high definition
- 10-point capacitive touch
- 7 Mohs hardness tempered glass
- Thermal printer with cutter
- Front frame aluminum alloy + anodized oxidation
- Back shell cold-rolled steel + metal baking paint
- 180 degree bar-code scanner

Customer usage process

- Play video or picture ads in idle time, improve store marketing efficiency
- Customers scan product codes to shop by themselves, reduce queuing time, optimize shopping experience
- Log in to enjoy member discount price, get consumption points after payment
- Support using electronic coupons, one-click scan code verification to enjoy discounts

- Collect receipt and take away goods after settlement

Strong scalability

Expandable modules：

cash register status light | demagnetization module | POS machine bracket | bracket tray | weighing; anti-loss

Production configuration parameter

Configuration	Android	Windows
Motherboard	Embedded Industrial Control Motherboard	Embedded Industrial Control Motherboard
Processor	3288 / 3399	Intel i3 / Intel i5 / Intel i7
Running memory	2G / 4G / 8G	2G / 4G / 8G
Hard disk	8G / 16G / 32G	128G
Network	Wired (Ethernet 10/100/1000Mbps) / Wireless (2.4G/5G)	
Resolution	1920*1080	
Brightness	350 cd/m²	
Viewing angle	178°	
Touch screen	Capacitive ten-point touch screen	
Camera	3D facial recognition camera	
Scan window	180-degree large scanning window, self-service customization, support 1&2D scanning recognition, support mobile phone screen scanning recognition, support no backlight screen barcode	
Printer	Hermal printing, speed 170mm/second, paper width 80mm, print head life 100Km, cutter life 1 million times	
Audio	5*2W	
Voltage	AC 220V 50Hz	
Power	60-300W (different sizes, configurations, power consumption, please consult customer service for details)	
Support customization of external devices	Card reader (ID card, NFC, IC, D card), POS machine, scanner, fingerprint recognition	

Application cases
